Yacht Description

Brand New Maiora 30 Walk-Around Flybridge Yacht for Sale – New Construction – New Model – New Design – Delivered July 2021

MAIORA 30 WALKAROUND, with her elegant and sleek design, owes her name to a key feature: the possibility for all the guests to walk-around easily and continuously from the aft flybridge to the bow areas. With a length of 30.5 M (100 ft.) and a beam of 7.5 M (24'7" ft.), this yacht allows her Owner to enjoy huge inside volumes and outside areas. A wide, aft deck welcomes guests as they step onboard. The generous en-plein air flybridge is a very versatile area that can be set with sunbathing area, sofas, a table for al fresco dining and sunbeds at the bow according to Owner's wishes. The double helm station is equipped with fully redundant navigation equipment. The main deck houses a spacious salon that turns into an outstanding cinema room equipped with the latest Samsung TV 85" QLED 8K Q950T and K-Array audio system for a premium live experience. Natural light shines through ceiling-high windows and in the main salon. The lower deck offers up to 4 cabins available in different arrangements. The interiors feature exclusive collection and custom craft pieces by Poltrona Frau. The crew quarters are made up of a dinette, two twin-bed cabins and a single cabin, hosting up to five people. The superb sound experience by K-Array can be enjoyed also in the master suite on the main deck, as well as outside areas with party mode. This motor yacht features the incredible capability to accommodate an impressive 6+ M (20 ft.) tender in the side garage. Two engines MTU 12V2000M96X of 2000Hp each allow her to reach a top speed of 22/23 knots in total comfort and to have a range of 1,150 nautical miles at economical speed (10 knots). MAIORA 30 WALKAROUND can cruise in excellent stability both underway and at anchor due to zero speed fin stabilizers that give full comfort. She is the perfect choice for adventure lovers, who want to get closer to the shore, explore new habitats and experience hidden and wild spots also thanks to the aft beach area which is literally designed by the sea.

Specification
